1. INTRODUCTION

In accordance with the General Data Protection Regulation (GDPR), Cegid makes available to its customers this document listing, in the context of the performance of the contract between Cegid and a customer, the processors likely to act on behalf of Cegid. When the customer subscribes to a service, Cegid hires one of the processors indicated in this list according to its needs and the necessary expertise.

Cegid contractually ensures that its processors commit to security and confidentiality commitments in accordance with the GDPR.

Details :

- "Data hosting provider" processors are involved in the performance of a contract for a SaaS service.
- "Consulting" or "Engineering" or "Integrator" processors are involved in the performance of a contract for a service (data transfer, specific development, integration, etc.). excluding SaaS service and Customer Care (support).
- "Partner" processors are involved in the operation of a SaaS service.
- The "Support" processors intervene in the context of the support in application of the signed contract (SaaS contract, license, services, etc.).

The activity and country of location of the processor are listed in this document.

In order to find out more precisely which processor(s) are currently involved, you can contact us at dataprivacy@cegid.com indicating your customer number.
