Special Offers Test&GO Retail the New Way

Cegid remains by your side during these uncertain times. To help support you, we've launched a range of **'Test&GO'** offers. New shopping scenarios (click & collect, order in store, ship from store), managing single stock, the new role of in-store sales associates, in-store mobility and real-time intelligence... retail is constantly changing.

We invite you to take a look at this catalogue of offers to help you respond to these changes and **Retail the New Way.**

Special Offers
Test&GO
Retail the New Way

**WHY HAVE WE LAUNCHED TEST&GO?
OMNICHANNEL, DIGITAL STORE
TRANSFORMATION AND REAL TIME ARE NO
LONGER AN OPTION.**

Your customers expect to shop via any channel and touchpoint offline (own stores, shop in shops etc.) and online (web, social media, market place). They expect a seamless and consistent shopping experience. Alongside intense economic pressure in retail, this means that your stores have to adapt and staff roles and expectations are changing.

HOW? WITH A UNIQUE OFFER TO HELP YOU EXECUTE YOUR OMNICHANNEL STRATEGY.

Single Stock Management: Gain a single, real-time view of your stock and optimise fulfilment with Cegid's Order Management (OMS) and Distributed Order Management (DOM) modules.

Omnichannel Scenarios: Address all key shopping scenarios, like Click & Collect, E-reservations, Order In-store to maximise sales opportunities.

Ship from Store: Turn your physical stores into logistics hubs and fulfil customer orders quickly, efficiently and in the most sustainable way possible.

Retail the New Way

EMPOWER YOUR SALES ASSOCIATES WITH DIGITAL TOOLS TO BETTER-SERVE YOUR CUSTOMERS.

Transformation of Stores and Store Associates: Your stores must evolve to become a point of service, a place to experience and a logistics hub. To carry out these demands, store associates need both back & front store mobile tools to better serve, sell, fulfil orders, manage stock etc.

Agility through Retail Intelligence: Your employees, store associates, managers and directors must have real-time data, intuitive dashboards and insights to understand key trends, to make informed decisions and keep track of KPIs.

Retail *the New Way*

Rethink the in-store customer journey. Reduce wait times, make queuing a thing of the past and deliver a seamless and stressless experience.

Social distancing, sanitiser stations, contactless shopping and payments...retail won't be the same for some time. Nonetheless, providing safe and personalised service will still be what sets apart those that will succeed - all be it with less human contact. It's now even more important to digitise your stores and empower staff with mobile tools to improve the shopping experience and help drive more sales.

From now on, your store associates will be able to:

- Share real-time information with the customer, quickly and efficiently
- Process multiple omnichannel orders in a single basket
- Accelerate the sales process thanks to 'Queue Busting'
- Fulfil online orders from the store
- Manage sales – with contactless payment
- And much more!

Test&GO Offer

Offer valid until 30th April 2021

Retail *the New Way*

Rethink your store's back-office logistics and accelerate your omnichannel strategy.

It's vital to put in place omnichannel services and tools that will help you manage stock across multiple channels. You need to do everything you can to get more productivity out of your stores and staff.

Take advantage of Test&GO Inventory Tracking. This mobile "back-store" logistics solution is specially designed to manage inventory for inter-store transfers, for checking deliveries, to manage omnichannel picking etc.

- Quick to set up with a rapid ROI
- Significant productivity gains
- Improved responsiveness in the current economic climate
- Easy adoption and use by staff

Retail *the New Way*

Free up your IT resources and gain agility with SaaS to accelerate your omnichannel and digital transformation with this all-in-one solution.

The pandemic has shone a spotlight on those retailers who have delayed or not yet made the switch to digital and omnichannel services. It's also highlighted strains on retailers' IT resources putting a renewed focus on the importance of transitioning to SaaS.

For increased performance, you can now take advantage of Test&GO SaaS Migration to migrate to Cegid Retail Y2 in SaaS mode, which is specifically designed for smaller retailers with fewer than 15 stores, 30 POS, independent stores, concessions or franchisees.
