

Innovative software provider Planon chooses Talentsoft for its recruitment needs

Planon offers innovative software solutions for building owners and occupiers, commercial service providers, and financial controllers. To write that software, it needs to find talented developers across the world. That is where Talentsoft comes in.

2,500+ customers
in 40 countries

750+ employees
in 12 countries

100+ vacancies each year

Challenges

- Find developers across the world to write cutting-edge software
- Implement an integrated global HR solution to serve a global business
- Find an HRIS that adds value by delivering high-quality management information

Results

- Talentsoft Recruitment module provides an overview of global vacancies and facilitates management
- Complete employee journey handled in one software package
- Possible to identify where improvements are needed and set local goals accordingly

“What Talentsoft does really well is partner with its customers. During the implementation process, I spoke with my Customer Success Manager and provided a lot of feedback which is now in the solution.”

Teske Schröder, Global HR Manager – Planon

Implemented actions

Implemented Talentsoft's Recruitment module.

Used the Talentsoft Community to exchange with fellow customers.

Took advantage of the Club Talentsoft event to form a community of Dutch Talentsoft customers.

What's next

Implement Talentsoft Learning and Continuous Conversation modules.

Best practices

Start by defining the process you want to automate.

Remember that the software tool is there to facilitate that process.

Share best practices with other Talentsoft customers through Talentsoft Community and Talentsoft events.

Attend Club Talentsoft to network and exchange with peers and keep informed of product innovations.

"We are an IT company, so we talk a lot about the disruptive world and technology. Talentsoft is really a step ahead when it comes to building a strategy for the world of tomorrow. That's what makes them such a good partner."

Teske Schröder, Global HR Manager – Planon

ABOUT TALENTSOFT

Talentsoft is the European leader in cloud-based talent management and learning software. Its digital platform encourages interactions and transforms the working experience while integrating competency management with career paths and learning programs. Talentsoft delivers a unique, fully-integrated workforce management and HR analytics solution to efficiently manage HR processes: recruitment, onboarding, performance, talent review, competencies, learning and compensation.
